Fata_Morgana

Interpol's Maritime Intelligence Division intercepted intelligence regarding a cargo vessel suspected of transporting a large shipment of methamphetamine across the South China Sea.

Authorities believe the vessel attempted to offload narcotics to smaller boats before interception. Satellite imagery captured the vessel operating in the region during February 2025.

The ship was operating under a suspicious identity and investigators believe the hull name Silver Aurora may have been altered.

Your task is to identify:

1. The vessel's real name
2. The country flag it sails under
3. IMO Number

Answer format:
IMO-ship-name-flag

CLUE :
ship's destination port's co-ordinates = 22.599653771374758, 120.28782339389913
